Process Overview

Learning objective Familiarize yourself with an existing story. **Time** 60 min.

Scenario In the *SAP Analytics Cloud (SAC)*, a dashboard for sales already exists. Alex Kuhn (Vice President Marketing and Sales) asks you to familiarize yourself with it and make minor adjustments.

Specifications Alex Kuhn: "On the *Sales Quantity* page, I want to have a filter for the calendar month in addition to the filter for the year."
"On the *Sales Revenue* page, in the bar charts, exchange the Price *per PC* key figure with the *Contribution Margin*. In this context, you also remove the key figure *Price per Piece* from the table."
I would also like to ask you, for the above Bar chart to choose a different color display."

Table of Contents

Process Overview 1
SAC 1: Log on to SAC 2
SAC 2: Opening an existing SAC Story 4
SAC 3: Using an existing Story 6
SAC 4: Copy Story 9
SAC 5: Add Page Filter 10
SAC 6: Change Key Figures 13
SAC 7: Change color display of a table 16

SAC 1: Log on to SAC

Logon to SAC task. **Time** 10 min.

Description Log on to the SAC tenant in a web browser and make the described settings.

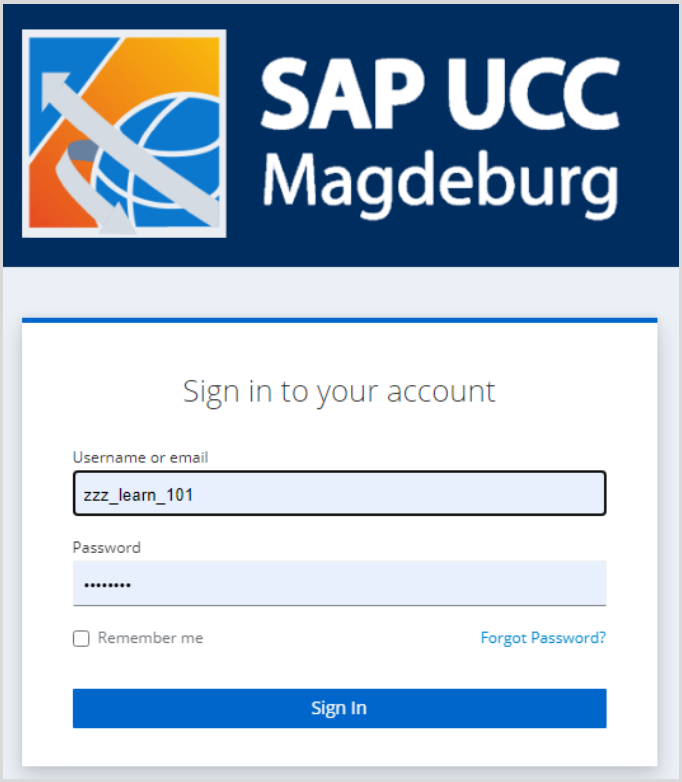

Note To be able to use SAC in its entirety, please use *Google Chrome* only.

Browser Selection

Clicking on the following link takes you to the Identity Management System of SAP UCC Magdeburg. This provides anonymous identities for logging on to SAP cloud solutions according to valid data protection rights.

Initial Screen

https://ucc-pilot-sac.eu10.hcs.cloud.sap/

On the login screen, enter the **user** named by your instructor and your personal **password**, which you should have already defined.

User
Password

Then click **Sign In**.

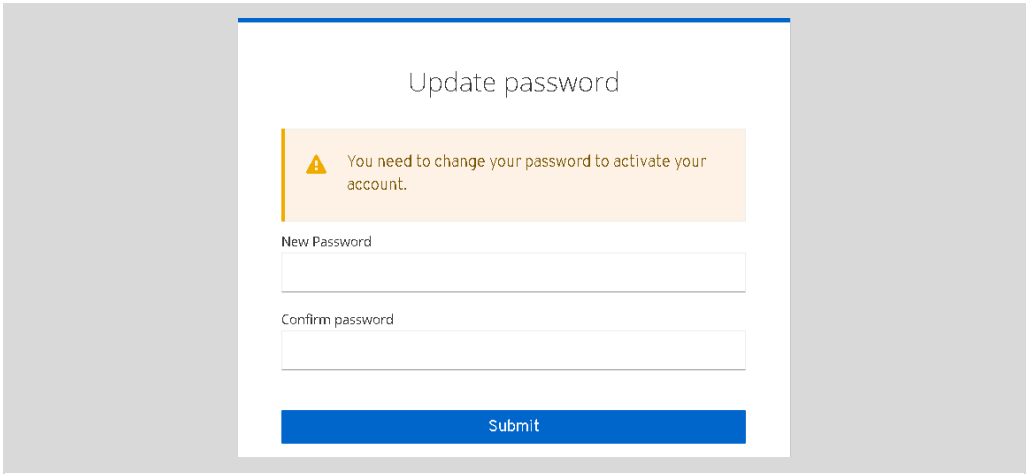

Sign In

Note If you log on to SAC with this user for the first time and with an initial password, you are prompted to enter a personal password for this user.

Password Change

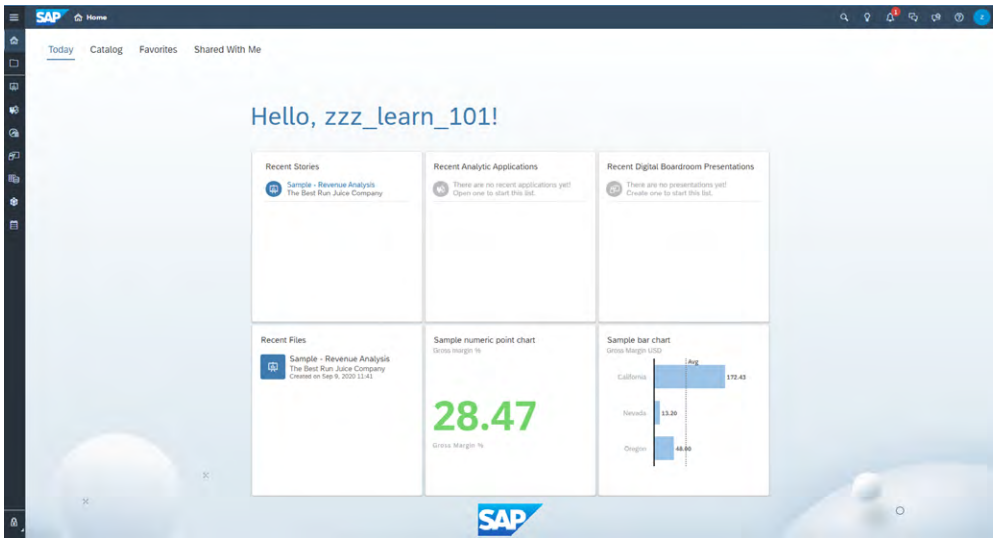

After you have entered your new password twice in the *Update password* window, confirm with **Submit**.

Submit

After logging on, you will be taken to the home *screen*.

Home Screen

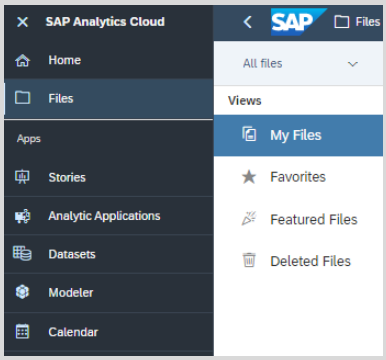

SAC 2: Opening an existing SAC Story

Opening an SAC Story **Task** **Time** 5 min.

Description In SAC, open the story *Story (exercise, Story Builder)*.

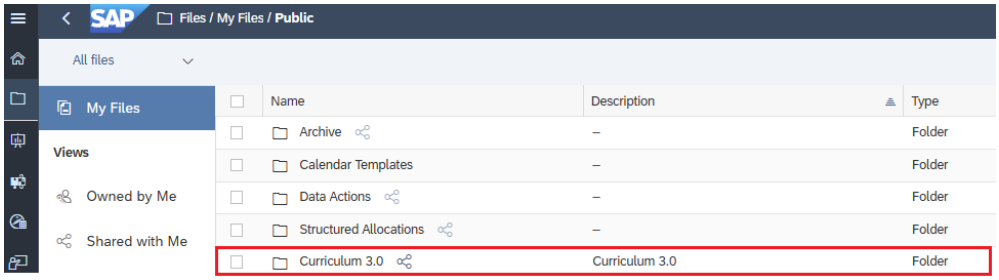

Initial Screen

On the home screen, choose (Files) on the upper left.

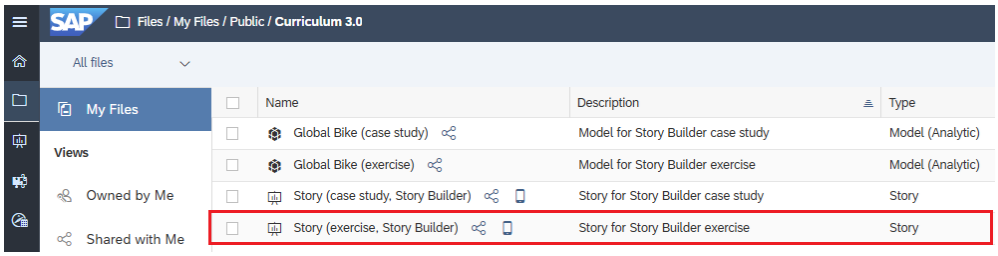

Public Ordner -> Curriculum 3.0

Now find and open the **public folder** and the folder **Curriculum 3.0**.

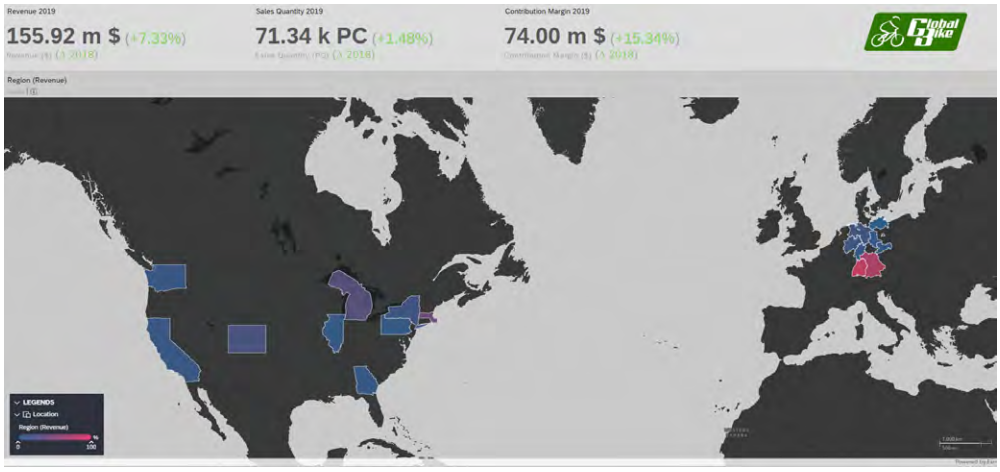

Story (exercise, Story Builder)

Simply click to open the Story **Story (exercise, Story Builder)**.

This opens the story with its *Overview* page.

Revenue 2019
155.92 m $ (+7.33%)
Sales Quantity 2019
71.34 k PC (+1.48%)
Contribution Margin 2019
74.00 m $ (+15.34%)
Region (Revenue)
LEGENDS
Location
Region (Revenue)

SAC 3: Using an existing Story

Task Use an existing story. **Time** 15 min.

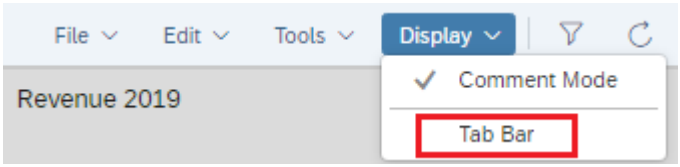

Description Test the different pages of the story as well as the interactions.

Initial Screen

Open the exercise *(Story Builder)* as shown in the previous exercise.

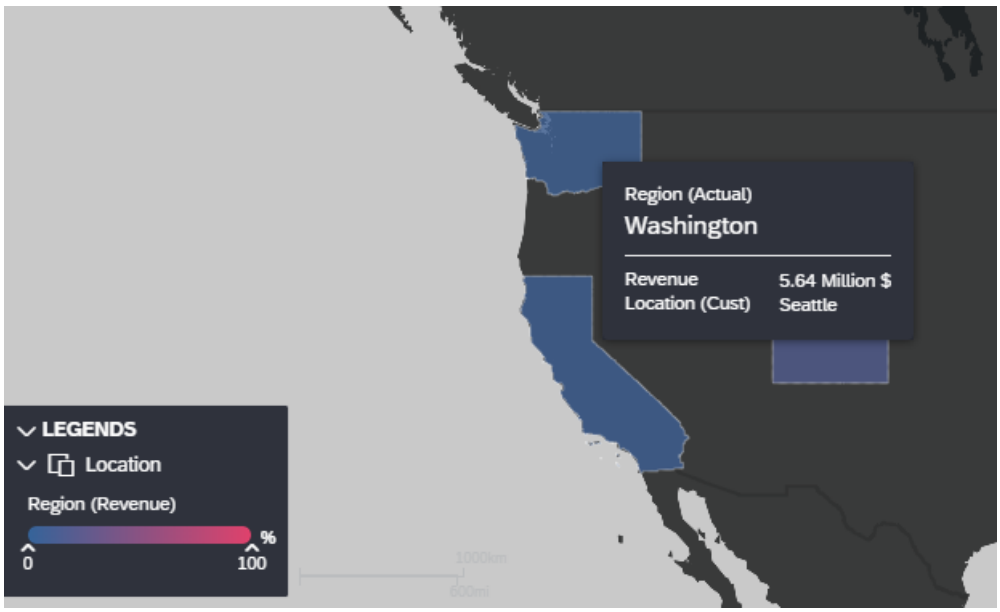

Tab Bar

To better navigate through the pages of the story, choose **Tab Bar** from the *Display* menu.

Overview

On the first page (*Overview*), the header area displays the three most important key figures, including a comparison of the previous year, in percent. On the world map, you can see the sales by U.S. states. The colors represent the sales volume. If you are driving over a colored area, the system displays detailed information about this region.

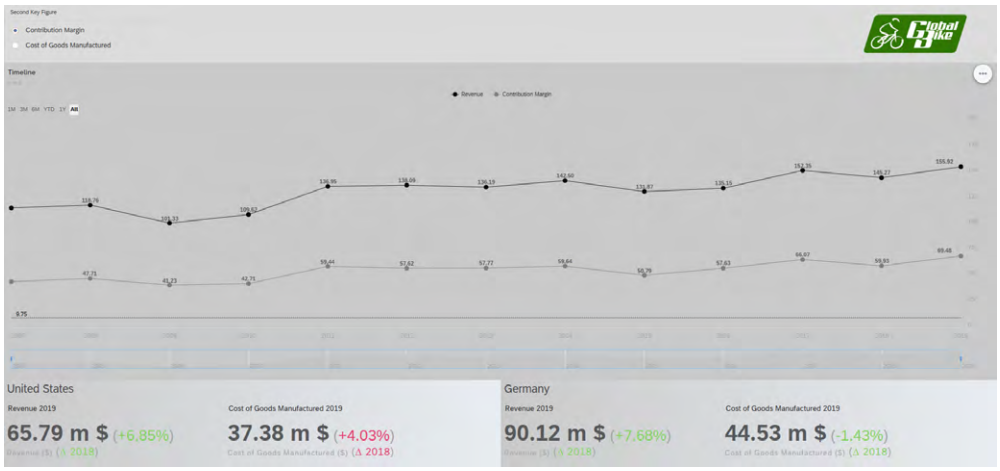

Timeline

On the second page (*timeline*), you can see the realized sales and production costs or the profit margin by year.

All

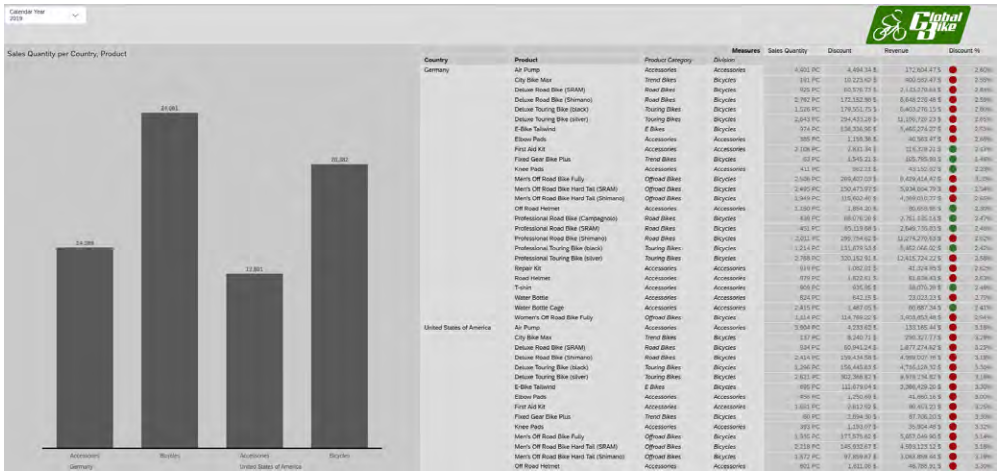

Note If you only see the report for the last 12 months, click **All** at the top left above the chart.

In the lower part of the page, the system displays the two selected key figures by country (*United States* and *Germany*) and the change from the previous year. Since the data record used ends in 2019, the previous year is 2018.

Sales Quantity

The third side (*Sales Quantity*) contains detailed evaluations of the quantities and discounts. If you click a bar in the left chart, the data in the table is filtered accordingly.

Drill Up on Product
Drill Down on Product

Click a bar to drill up or down its product hierarchy levels. To do this, use the button **Drill Up on Product** or **Drill Down on Product** **in the** context menu.

The total sales figures for each country are displayed at the highest hierarchy level. This is followed by the *Accessories* and *Bicycles* divisions. On the third level you will find the product categories *E-Bikes*, *Offroad Bikes*, *Road Bikes*, *Touring Bikes* and *Trend Bikes*. At the lowest level, the sales figures for each product are displayed.

Sales Revenue

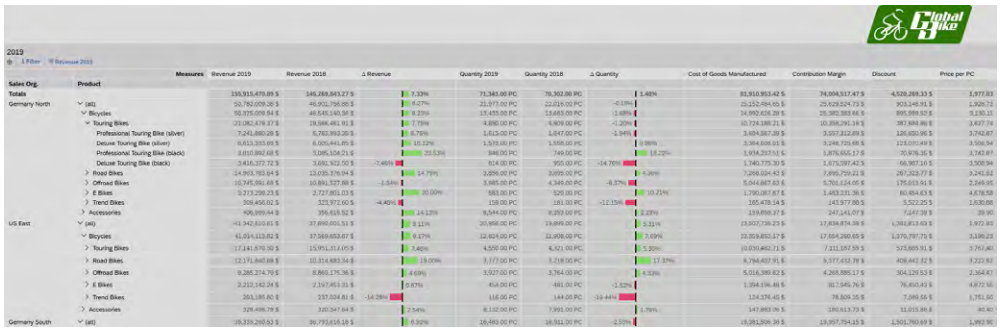

Germany

On the fourth page (*Sales Revenue*), you can find detailed information about the revenue. In the header area, you can *filter* by country. Clicking on the entry **Germany** displays the data for Germany.

Detail Analysis

On the fifth page (*Detail Analysis*), you can evaluate the data in tabular form within the product hierarchy. In addition to the total amount, these include the *division*, the *product category*, and the *individual product*.

SAC 4: Copy Story

Task Save Story as Own Story. **Time** 5 min.

Description Save the opened story as your own story in your folder to prepare for the following exercises.

You have still opened the exercise *(Story Builder)* from the previous exercise. If you have closed them, open them again as described above.

Initial Screen

In the ribbon, go to *File* and choose **Save As…**.

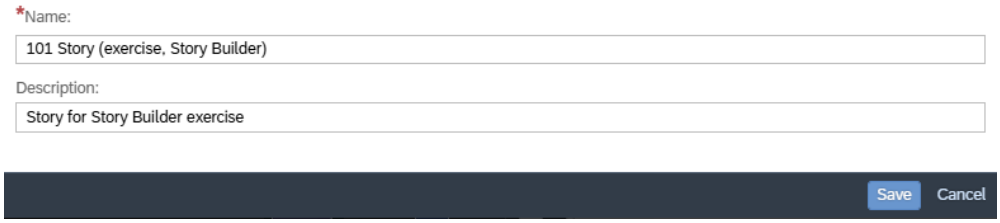

Save As…

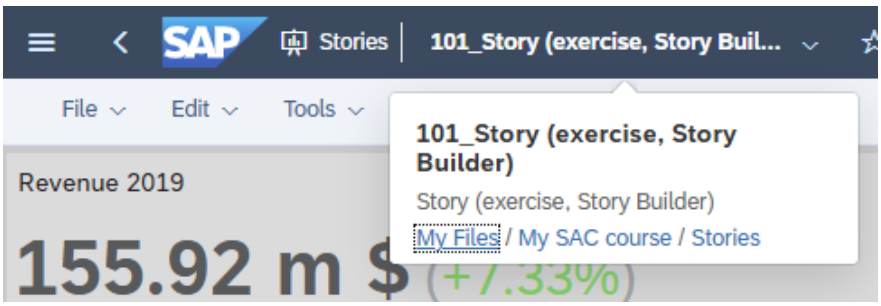

Select your personal subfolder *Story* as the location. You can access this via *My Files* ► *[your personal folder]* ► *Stories.*

In the *Name* field, add your three-character ID **[###]** as a prefix to the name of the story. Finally, confirm the window with **Save**.

###
Save

The story has now been saved as a copy in your subfolder and you'll continue working in your own story from here.

SAC 5: Add Page Filter

Task Add another page filter. **Time** 10 min.

Description On the third page (*Sales Quantity*), additionally add a filter by calendar month.

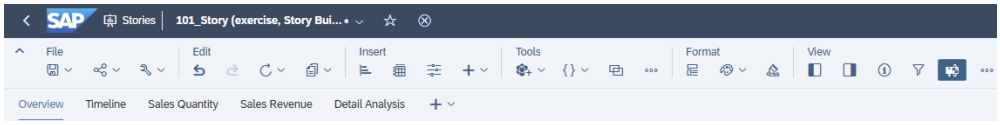

Initial Screen

You have still opened your story *### Story (exercise, Story Builder)* from the previous exercise. If you have closed them, open them again as described above.

Edit vs. View Mode

In comparison to the template story, in which you only had display rights, you now see the button Edit View in the menu bar at the top right. You can use this to switch back and forth between *edit* and *view* modes. Click on **Edit** so that this part of the button is colored Edit View. As a result, you now see the menu bar for editing.

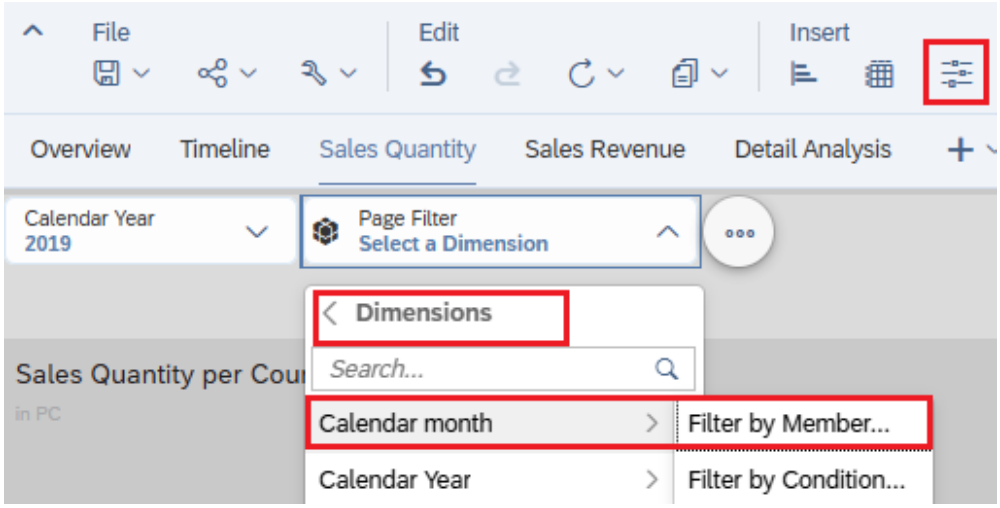

Edit

Switch to the *Sales Quantity* tab page.

Input Control
Dimensions
Calendar month
Filter by Member…

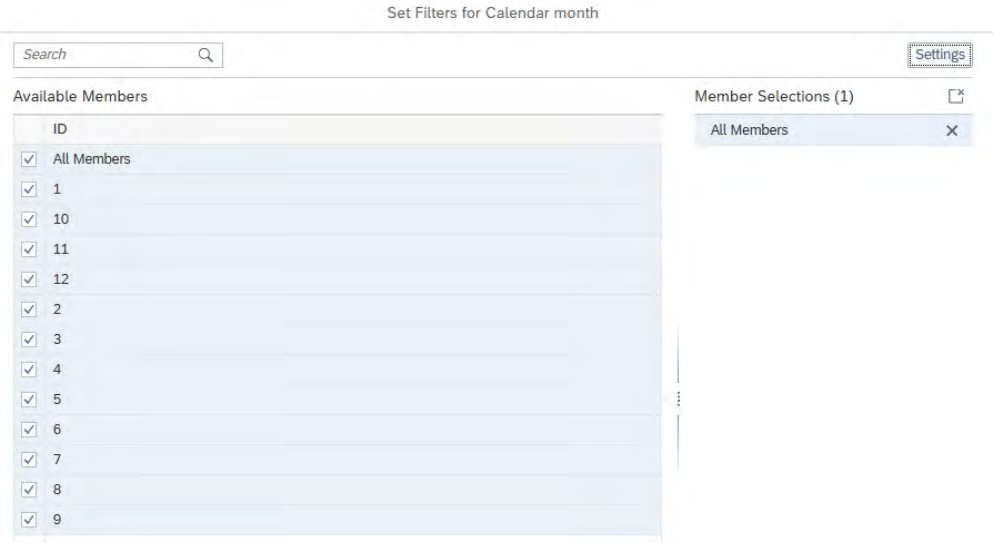

In the Insert ribbon, choose the Icon **Input Control** . After clicking on the **Dimensions** menu item, choose **Calendar month** and then **Filter by Member…**.

All Members

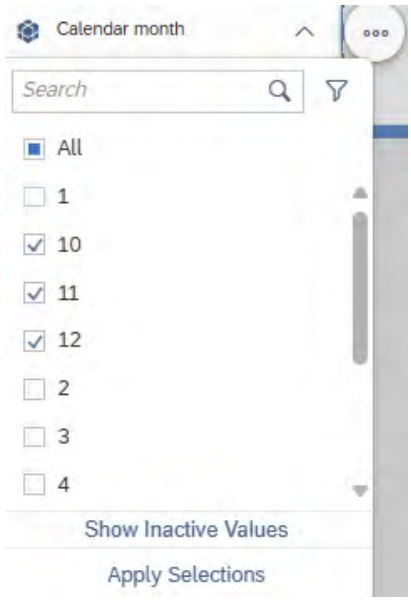

Ok then

Now you define which data is visible during execution. To be able to select dynamically later which month(s) of the calendar year is used for the evaluation, choose **All Members**, leave the remaining settings and confirm the window with **OK**.

Make a default setting for the fourth quarter by selecting the relevant months. To do so, click your filter. In the dropdown menu that appears, deselect the entry **All** and select the months **10**, **11**, and **12** instead.

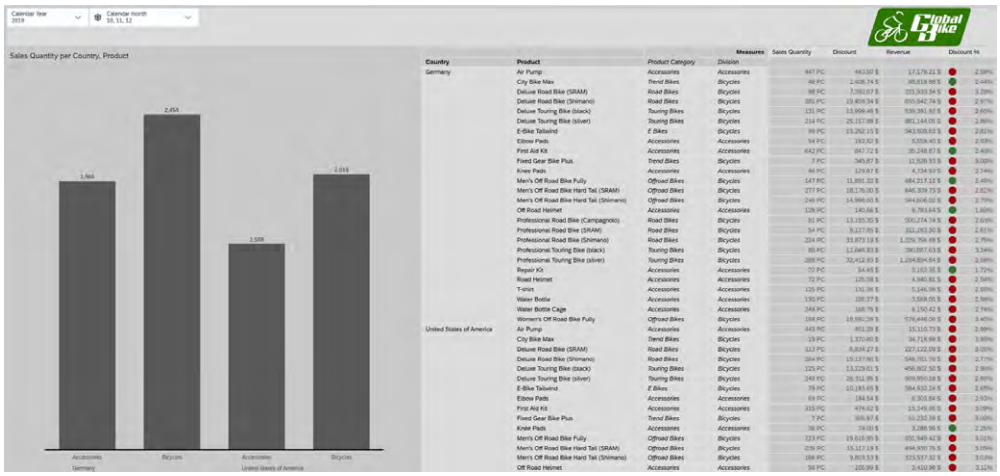

~~All~~
10
11
12

In the menu bar in the *File* area, choose **Save** icon to save your changed story. You then switch to the **mode view** to test your new filter.

SAC 6: Change Key Figures

Task to change the displayed key figures in a table and in a graphic. **Time** 10 min.

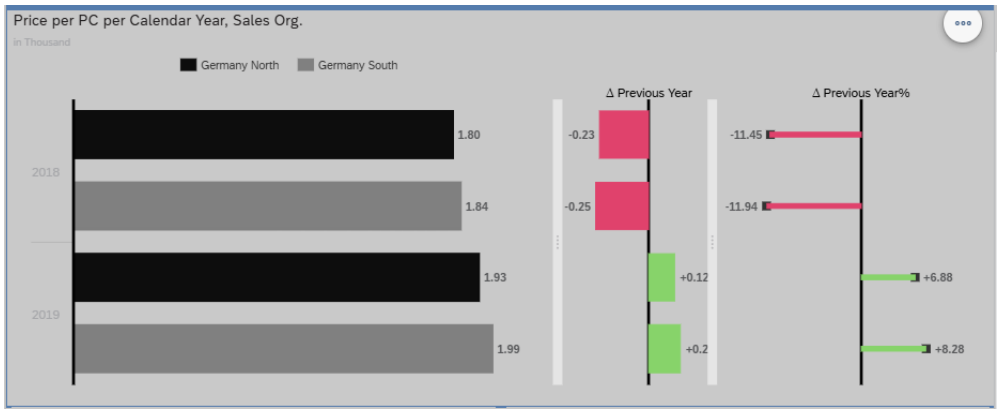

Description On the fourth page (*Sales Revenue*) in the first graphic, change the key figure displayed from *Price per Piece* to *Contribution Margin* and remove the key figure *Price per Piece* in the table.

Initial Screen

You are still in your story *### Story (exercise, Story Builder)*. If you have closed it, open it again.

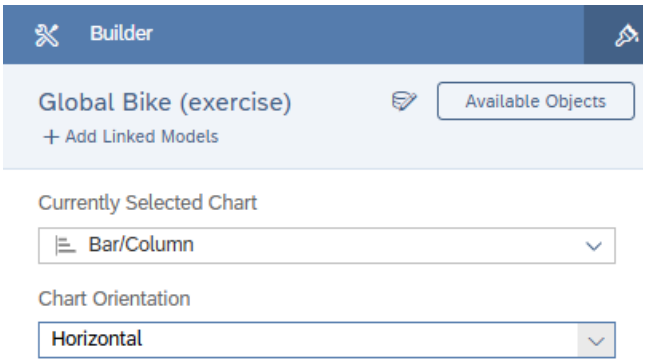

Close view mode by closing the tab.

Go to the fourth page (*Sales Revenue*) and select the area of the graphic *Price per PC per Calendar Year and Sales Organization* by clicking on it. This results in a fine blue border.

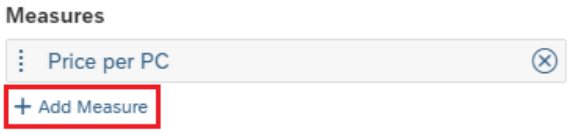

Right Side Panel
Builder

To edit the settings of the graphic, click **Right Side Panel** in the **View** area. The *right side panel* opens in the **Builder** panel Builder.

Add Measure

In the *Measures* pane, choose **Add Measure**.

Select the **Contribution Margin** key figure and then remove the **Price per PC** key figure.

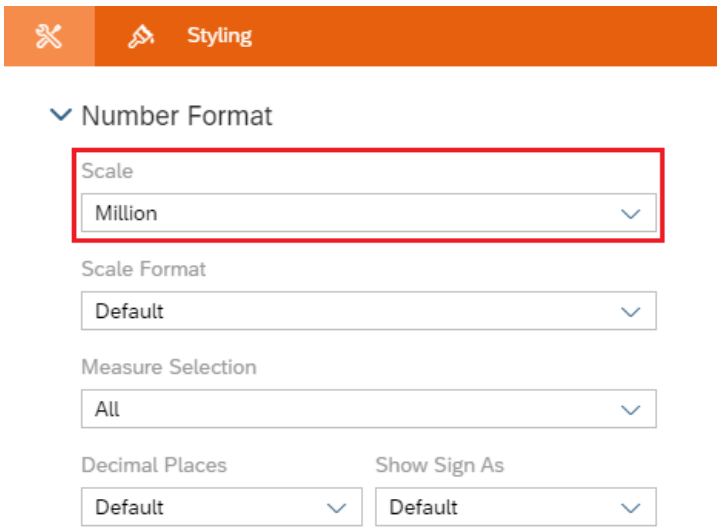

Contribution Margin
~~Price per PC~~

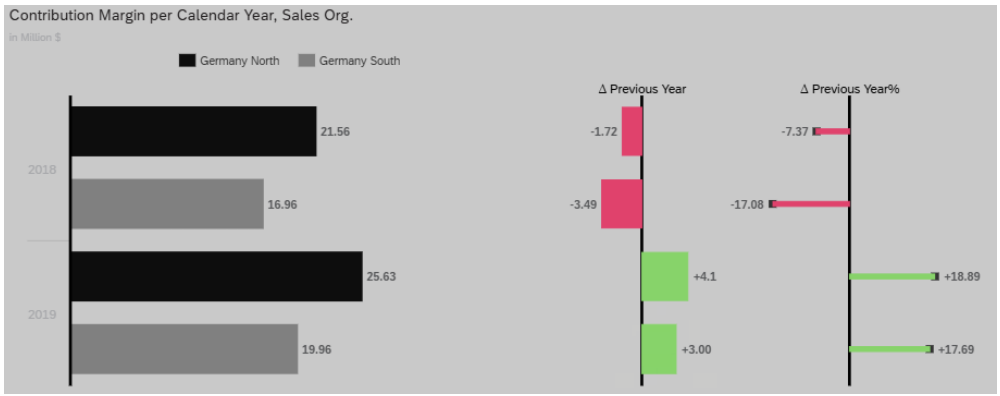

To make the graphic more meaningful, you now change the scaling of the key figure from *thousand* to *million*. To do this, first select **Styling** in the *upper right-hand side panel*. Now scroll down to the *Number Format* area and select **Million** as scale.

Styling

Million

Now you have replaced *Price per PC* with **Contribution Margin**.

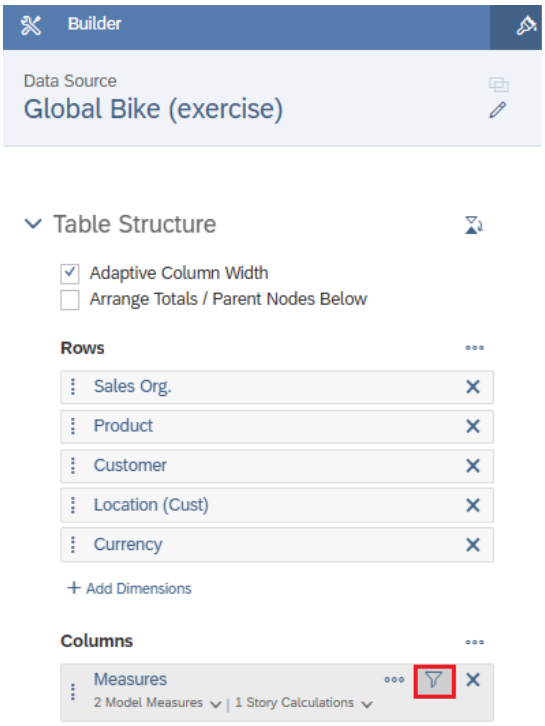

In the *File* area of the menu bar, choose **Save** icon to save your changed story.

Save

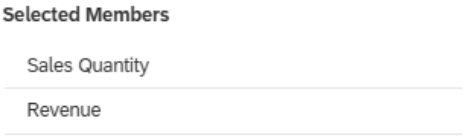

Builder
Manage Filters

Next, click in the table area and in the *Designer* window, go to the **Builder** panel Builder. Scroll down to the Columns section. Hover over the *Key Figures* entry directly. As a result, it is grayed out and additional icons are displayed. Click **Manage Filters** .

~~Price per PC~~
Ok then

Deselect the key figure **Price per Piece** and confirm the window with **OK**.

This removes the *Price per Piece* column from the table.

				Measures	Revenue	Sales Quantity
Sales Org.	Product	Customer	Location (Cust)	Currency		
Germany North	Totals				42,387,674.55	21,977 PC
	Bicycles	Totals			42,046,787.91	13,433 PC
		Capital Bikes	Berlin	EUR	8,453,617.46	2,723 PC
		Cruiser Bikes	Hannover	EUR	5,806,356.94	1,851 PC
		Alster Cycling	Hamburg	EUR	5,614,769.11	1,756 PC

Save

View

In the menu bar in the *File* area, choose **Save** icon to save your changed story. You then switch to the **mode view** to test your changes.

SAC 7: Change color display of a table

Change the color palette used for a graphic. **Time** 5 min.

Description On the fourth page (*Sales Revenue*), in the first graphic, change the color palette used.

Initial Screen

You are still in your story *### Story (exercise, Story Builder)*. If you have closed it, open it again.

Close view mode by closing the tab.

Go to the fourth page (*Sales Revenue*) and select the area of the graphic *Contribution Margin per Calendar Year, Sales Org.* by clicking on it. This results in a fine blue border.

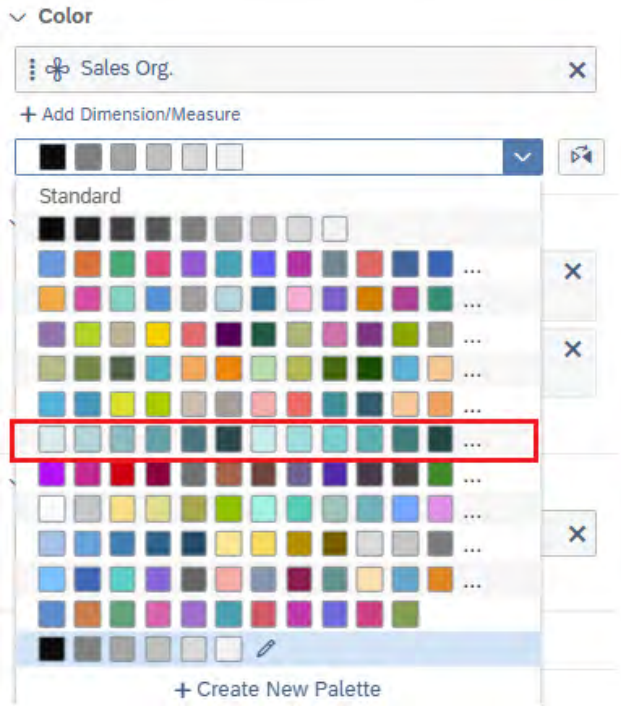

The *right side panel* is open. In the *Builder* panel, under *Color*, select a different predefined color palette from the drop-down menu.

Designer

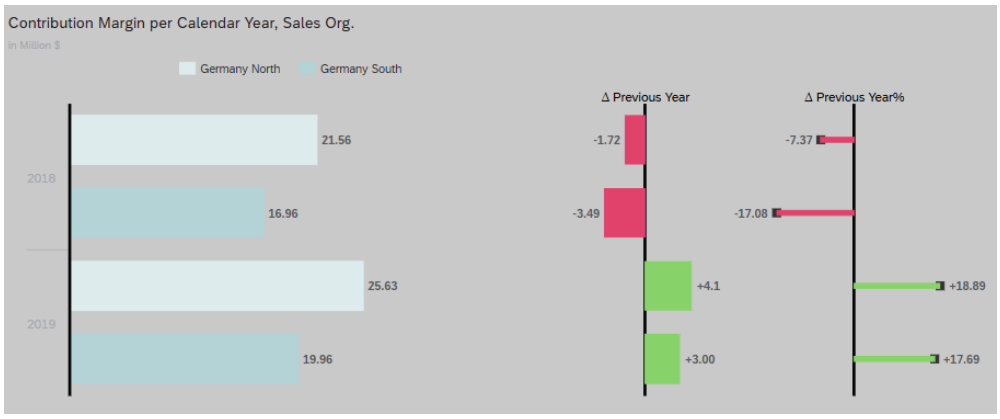

Builder

To edit the settings of the graphic, click the Designer button in the upper right corner. In the window that then opens, first make sure that you do not see the settings for the Styling, but the settings for the Builder.

In the *Color* area, select a different predefined color palette from the dropdown menu.

This automatically adjusts the colors of the bar chart.

In the menu bar in the *File* area, choose **Save** icon to save your changed story. You then switch to the **mode view** to test your changes.
